

Curved Module

A Curved Face Sign System

CURVED MODULE is a curve face sign system which can be supplied as component or as finished signs. Width of curved panel is available from 157mm to 765mm, based on a 29 mm module or a 32mm module. Texting options are screenprint or vinyl.

CURVED MODULE ideal for banks/financial institutions, corporate, office facilities, hospitals, schools, universities & libraries. Curved Module can be used for door and wall plates, directories and both single and double sided projecting and suspended signs
