

Engravable Multicolored Sheet

Engravable Multicolored Sheet

Engravable Multicolored Sheet is a versatile, environmentally stabilized sheet with multiple layers of contrasting color.

600mm x 1220mm x 1.5mm, matt surface
600mm x 1220mm x 1.5mm, metallic surface

Thickness of top layer:
0.01mm (For laser engraving);
0.02mm (For CNC engraving)

Typical application:
Its thin cap layers and bright, primary colors make it ideal for sign, marine, playground and recreational applications.
