

Magic Module™

A Planar Sign System

MAGIC MODULE FLAT SIGN is a complete aluminium system which can be supplied as component or as finished signs. Width of planar panel is no limit. Height of flat panel is based on a 25mm or 30mm module. Texting options are screenprint or vinyl. system ideal for virtually any signage need, from simple personnel and identification signs, to complex directionals and directories.

Practical advantages always come first in the philosophy, placing, mounting, changing and replacing should be possible with just one flick of the wrist.
