

Channel Letter Trim-cap

Channel Letter Trim-cap

CHANNEL LETTER TRIM- CAP is the most widely used signage material in the world. It is first-class aluminum coated with plastic, which enjoys the features of firm, elastic and seamless.

It can be easily made into any channel letter and logo. It has thoroughly changed the static effect of traditional crone signs, cutting down the cost and time involved and improving the level of signage making. J and Arrow in shape are available.

Trim-cap roll

Width 20mm(3/4") 45M(150feet)/Roll
